MAIN BDC.

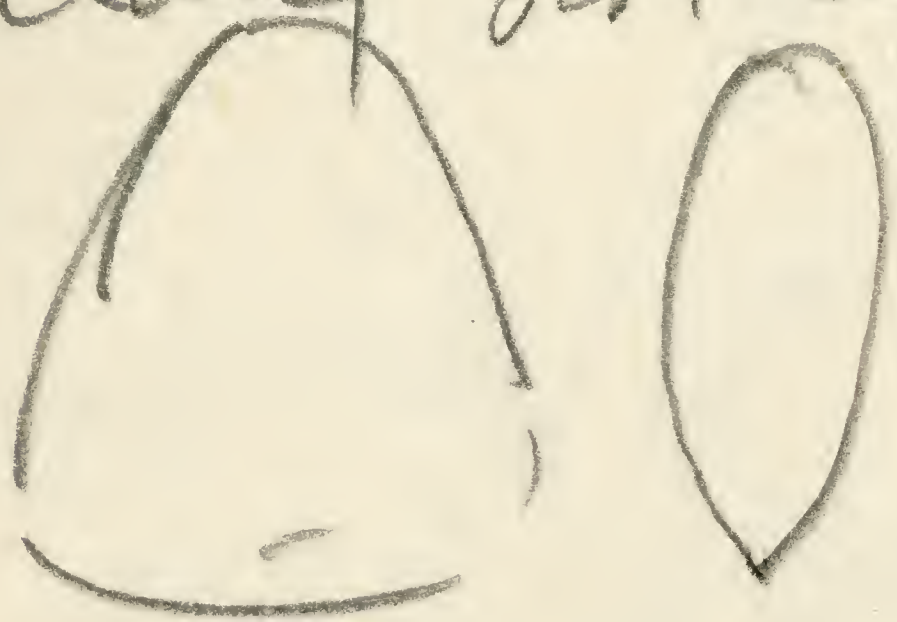

+ steps

Gualanala

Celts, mostly polished dark
Green stone (chloromelane)

many ^{smaller} just like hemispheres

This size up to

6 or 7 in length

many rather thick with
blades square in section

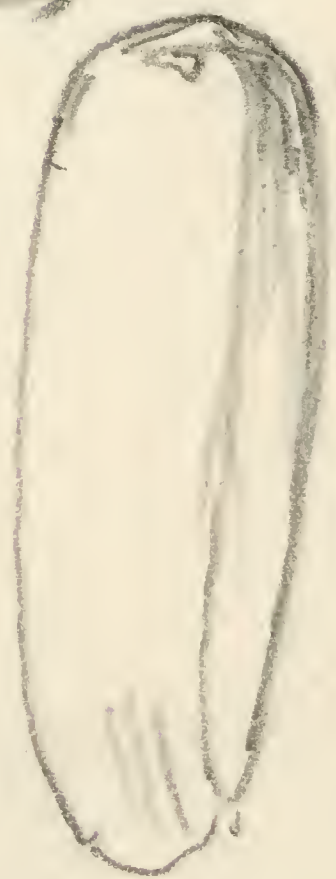

Hardly to be distinguished from
knives same by squareness

+ flat faced ones

edges ^{mostly} all round

Same as of W. I. type

usually broader at edge

Guatemala

N.Y.

Typical flaking hammers
was used & slightly rounded
polder

part greenish

Same glacial

2 to 3 1/2 inches in dia.

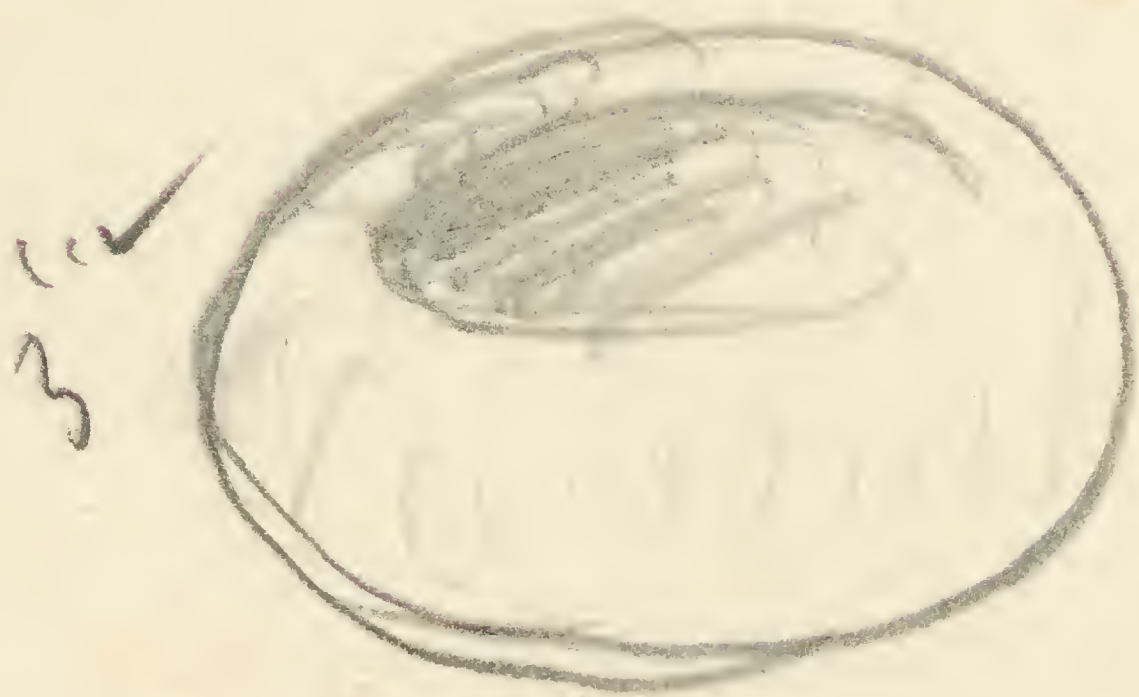

Gratulation

29

Fat cells

Same premium grade!

Observe
clips & pins

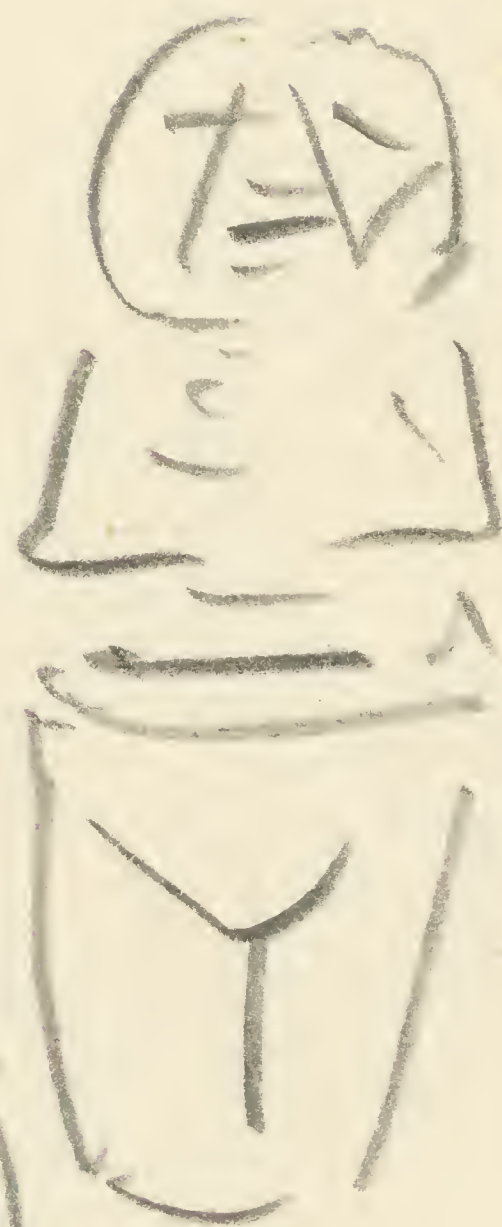

7

Heat better than cold
Pony punch

Guatemala

24

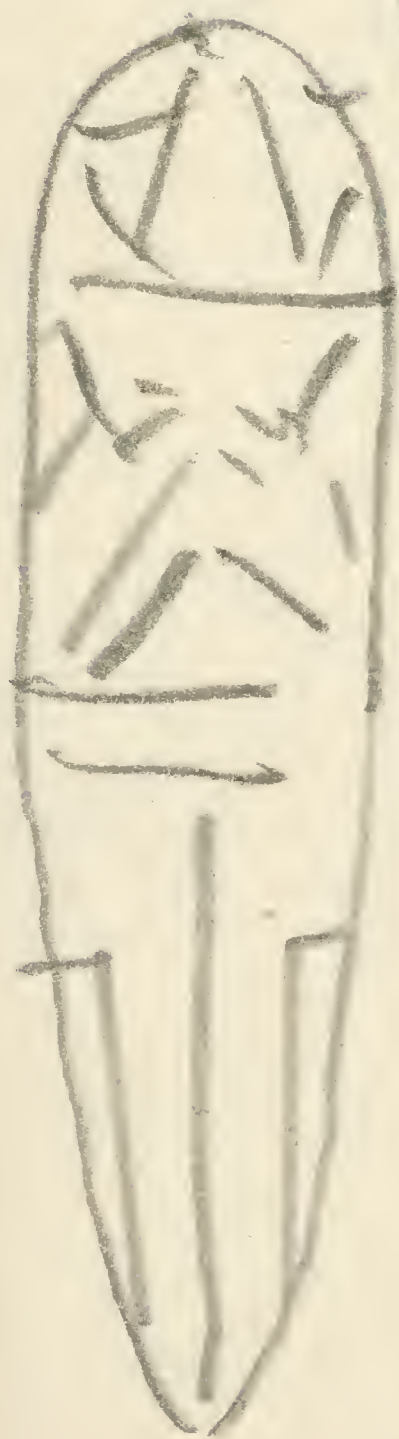

Many Call shaped idols
2 say 4 pieces & 4
rather much

old female

1 1/2 to 2 inches long

rather much pink

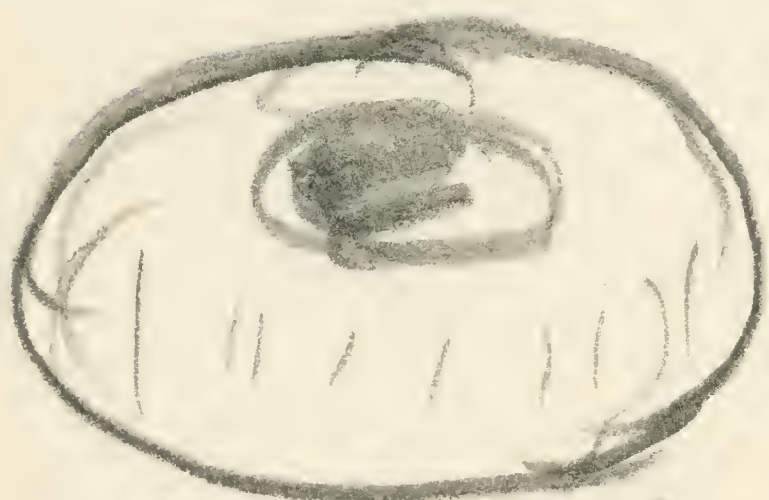

101-

29.

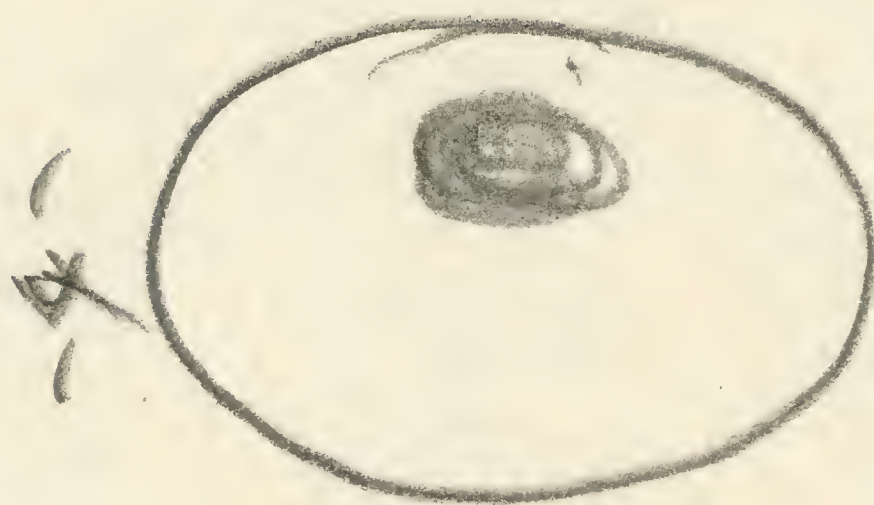

Gravelled

Digging weevil

3 To 6 1/2 in

many
heavy

Perfect
further
Kenchere

+ 1/2 to 4 thick

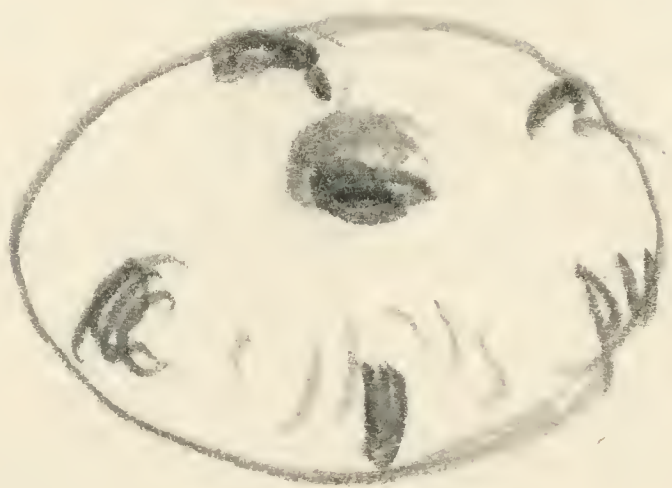

Rounder or be can eat
holes

Same good Douglas

Knobs & ridges

1 hole

Rough to smooth
brush

By for Club heads
no true holes

R 7-

Fractures

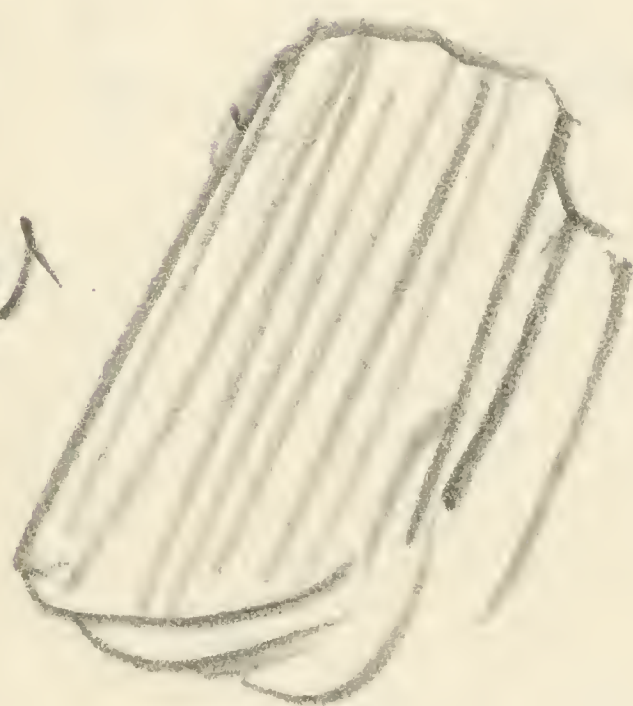

3

Paper beaters

usual round
beaters

v

all have grooves

fractured

ng.
